- C. Male applicants born after December 31, 1959, will be required to complete the certification documentation to confirm their Selective Service registration status.
- D. The U.S. Department of Justice Immigration and Naturalization Service by act of Congress requires that all individuals appointed to a position MUST present proof of employment eligibility by completing Verification of Employment Eligibility Form (INS I-9) at time of appointment.
- E. If selected, immunization for such illness as found necessary by the Billings Area. Individuals may also be required to be tested for tuberculosis.

<u>DUTIES AND RESPONSIBILITIES:</u> Plans and assigns work to subordinate, leads physician recruitment for Service Unit, sets priorities, establishes goals and objectives and schedules, for completion of work (considering the difficulty of the assignments and capabilities of the employees), gives advice, counsels or instructs individual employees on both technical and administrative matters. Communicates and represents the opinions, policies, concerns, needs and grievances of the medical staff to the Clinical Director, the Governing Body, the Chief Executive Officer and officials of the staff. Interviews and examines patients, reviews past medical history, and request and/or performs diagnostic test and examination deemed necessary to obtain all possible information related to each case.

<u>SELECTIVE PLACEMENT FACTOR:</u> Selective factors are knowledge, skills, abilities, or special qualifications that are in addition to the minimum requirements in a qualification standard, but are determined to be essential to perform the duties and responsibilities of a particular position. APPLICANTS WHO DO NOT MEET THE FOLLOWING SELECTIVE PLACEMENT FACTOR ARE INELIGIBLE FOR FURTHER CONSIDERATION: APPLICANTS MUST POSSESS AND MAINTAIN A CURRENT, ACTIVE, AND UNRESTRICTED MEDICAL LICENSE IN A STATE, DISTRICT OF COLUMBIA, THE COMMONWEALTH OF PUERTO RICO, OR A TERRITORY OF THE UNITED STATES.

IF APPLICABLE, SELECTED INDIVIDUAL IS REQUIRED TO OBTAIN AND MAINTAIN MEDICAL STAFF CLINICAL PRIVILEGES. IF PRIVILEGES ARE NOT OBTAINED OR MAINTAINED DURING EMPLOYMENT, THE EMPLOYEE MAY BE SUBJECT TO ADVERSE ACTIONS. UP TO AND INCLUDING REMOVAL FROM THE FEDERAL SERVICE

<u>QUALIFICATION REQUIREMENT</u>: Except for the substitution of education as provided in the Operating Manual Qualification Standards for General Schedule Positions, applicants must meet the following basic requirements in addition to the following types of experience, in the amounts indicated.

<u>BASIC REQUIREMENTS:</u> Degree: Doctor of Medicine or Doctor of Osteopathy from a school in the United States or Canada approved by a recognized accrediting body in the year of the applicant's graduation. [A Doctor of Medicine or equivalent degree from a foreign medical school that provided education and medical knowledge substantially equivalent to accredited schools in the United States may be demonstrated by permanent certification by the Educational Commission for Foreign Medical Graduates (ECFMG) (or a fifth pathway certificate for Americans who completed premedical education in the United States and graduate education in a foreign country).]

Graduate Training: Subsequent to obtaining a Doctor of Medicine or Doctor of Osteopathy degree, a candidate must have had at least 1 year of supervised experience providing direct service in a clinical setting, i.e., a 1-year internship or the first year of a residency program in an institution accredited for such training. For purposes of this standard, graduate training programs include only those internship, residency, and fellowship programs that are approved by accrediting bodies recognized within the United States or Canada. Listings of accredited programs are published yearly in the Directory of Residency Training Programs and the Yearbook and Directory of Osteopathic Physicians.

- An internship program involves broadly based clinical practice in which physicians acquire experience in treating a variety of medical
 problems under supervision (e.g., internal medicine, surgery, general practice, obstetrics-gynecology, and pediatrics). Such programs
 are in hospitals or other institutions accredited for internship training by a recognized body of the American Osteopathic Association
 (AOA).
- A residency program involves training in a specialized field of medicine in an institution accredited for training in the specialty by a
 recognized body of the American Medical Association (AMA) or AOA.
- A fellowship program involves advanced training (beyond residency training) in a given medical specialty in either a clinical or research setting in a hospital or other institution accredited in the United States for such training.

Licensure: For positions involving patient care, candidates must have a permanent, full, and unrestricted license to practice medicine in a State, District of Columbia, the Commonwealth of Puerto Rico, or a territory of the United States. Applications will be accepted from physicians who are not currently licensed; however, if selected for appointment, they must (a) obtain a license before entering on duty, or (b) meet one of the following provision: Appointments Pending Meeting Licensure Requirement: Individual circumstances may warrant appointments pending meeting the licensure requirement (e.g., when a candidate has a temporary license to practice until the next regular session of the licensing board). Persons appointed pending licensure may not be retained beyond 1 year of appointment if they do not obtain the license.

Additional Requirements: The requirements below are grouped according to types of programs-clinical and training, aviation medical, occupational health, disability evaluation, maternal and child health, and research.

• Clinical and Training Programs-Within Federal clinical and training programs, a distinction is made between general practice and specialist positions. General practitioners must be skilled in recognizing various medical pathologies that require referral to specialists for diagnostic and treatment procedures. Graduate training and experience must, therefore, be well rounded. Specialist positions require graduate training and experience related to the specialty and subspecialty of the position to be filled. Experience may not be substituted for training essential for performing specialized duties. The length and content of residency programs depends upon the specialization and requirements of recognized accrediting American medical specialty boards. These boards are authorized to conduct examinations to determine the competence of physicians in the specialty, to issue certificates of qualification, to participate in evaluating the quality of residency programs, and to determine the requirements for certification.

<u>SPECIALIZED EXPERIENCE</u>: One year of experience at the GS-14 level. Examples of specialized experience are: plans and assigns work to subordinate, establishes goals and objectives and schedules, gives advice, counsels or instructs individual employees on both technical and administrative matters. Communicates and presents the opinions, policies, concerns, needs and grievances of the medical staff. Interviews and examines patients, reviews past medical history, and request and/or performs diagnostic test and examination deemed necessary to obtain all possible information related to each case.

<u>PHYSICAL REQUIREMENTS:</u> Candidates must have the capacity to perform the essential functions of the position without risk to themselves or others. In most cases, a specific medical condition or impairment will not automatically disqualify a candidate. A physical condition or impairment may be disqualifying if the condition, for good medical reason, precludes assignment to or warrants restriction from the duties of the specific position

EMPLOYMENT INTERVIEWS: Applicants may be required to demonstrate in a pre-employment interview that they possess the personal qualifications necessary for successful performance.

UNPAID AND VOLUNTEER EXPERIENCE: The experience requirements may be satisfied with pertinent unpaid or volunteer work.

<u>BASIS OF RATING</u>: There is no written test. Candidates will be rated on a scale of 70 to 100, based on the extent and quality of your education, experience, and training as they relate to the duties of the position and grade your applying for. Your rating will be based on the information on your application and on any additional information obtained by this office. You will be rated for all grade levels for which you qualify and indicate you will accept. Indian preference candidates will be rated against the Preston Standards. <u>Specialized Experience</u>:

RANKING FACTORS: Applicants who meet the qualification requirements described above will be further evaluated to determine the extent to which their education, work related experience, training, awards, professional recognition and supervisory appraisals indicate they possess or have the potential to acquire knowledge, skills, abilities, and personal characteristics, (KSAP's) required to perform the duties and responsibilities described above. Applicants are encouraged to address the following KSAP's on a separate sheet attached to their application.

KSAP'S SUPPLEMENTAL QUESTIONNAIRE

- 1) Ability to provide leadership.
- 2) Ability to plan and organize.
- 3) Ability to make decisions.
- 4) Ability to be resilient.
- 5) Ability to manage program activities of a complex health care delivery system.
- 6) Ability to teach others.
- 7) Knowledge of diagnostic and therapeutic interventions in health care delivery.

The above KSAP's will be the basis for determining which applicants are best qualified.

Additional/alternate selection may be made within 90 days of the date the selection certificate was issued if the position becomes vacant or to fill an identical additional position in the same geographic location.

FOR INFORMATION CONTACT <u>Natanya Riggs</u> AT <u>(406) 247-7246</u>. ALL APPLICATIONS ARE SUBJECT TO RETENTION, NO REQUESTS FOR COPIES WILL BE HONORED.
